Beethoven decamped to the village of Heiligenstadt and lived there from April to October. In the document, he blames his incompetent doctors for deceiving him on the real nature and curability of his deafness. He worked on the piano genres of the sonata and the variation, creating the Bagatelles, Op. 33, and the Op. 34 and 35 Variations. His greatest works were still ahead of him in 1802 and, although the Heiligenstadt Testament shows us the depths of his despair, the works he created show how he used his talents to draw himself back into the world.For more of the best in classical music, sign up to our E-Newsletter His hearing had been declining since 1796 and he had been consulting doctors everywhere.
